

Vehicle: _____ Date: _____

Antenna: _____ Meter: _____

STANDING WAVE PLOTTING CHART

At a minimum, plot the SWR at channels 1, 19 and 40

Plot your starting and after-tuning SWR in different colors for easy comparison.

If the SWR is HIGHER on Channel 1 than it is on Channel 40, the system is electrically short

If the SWR is LOWER on Channel 1 than it is on Channel 40, the system is electrically long
